

Green Acres Riding School Mountain Trail Information

Horseback Riding at Kloppersbosch Farm - Nuy Valley and Langeberg Mountains

Expect The Unexpected : Make plans now

to meet some new friends, breathe some clean fresh air, and enjoy some spectacular scenery. You will be riding on scenic horse trails within the boundaries of the beautiful Nuy Valley, home to an abundance of wildlife, including Rhebok, Dassies, Klipspringer and Baboons to name a few. There are frequent wildlife sightings and photo opportunities along the trail as you ride through the winelands and mountain

meadows to vantage points in the Langeberg. The vegetation in this generally dry climate varies from succulent Karoo and Renosterbosveld to Mountain fynbos with plains of Protea. There are many fresh water points along the route which flows from the mountain tops into the Nuy River which acts as a natural irrigation channel for the Nuy Valley.
